# TONE

**The story is a dark journey set through Donny's and Carl's experiences.**

This is set at the intersection of the current day and the mysterious past, it explores a world from inside the church, behind the veil of love and forgiveness. It carefully guards an age old secret that the church does not want public.

It has the visual styles ranging from the grittiness of “The Sopranos” to the fractured timelines of “Pulp Fiction” to community mob ties seen in “Goodfellas.”

This series is very interesting and takes on a story as seen from the eyes of the victims who are left behind in the wake of the Catholic Church's pedophile scandal.
